NEW S/S STEM

SO-CAL Swan Neck Outside Mirror: Now features a beautiful polished S/S swan neck design along with a 4" diameter stainless steel-backed mirror held in place by a sculptured bullet nut. Remember, these mirrors are great for all sorts of applications, including some fat-fendered cars, late models, pickups, VWs, etc.

(A&B) #001-50100 Pair of outside mirrors: \$99.90 pr.

(A) #001-50101 Passenger side mirror: \$55.00 ea.

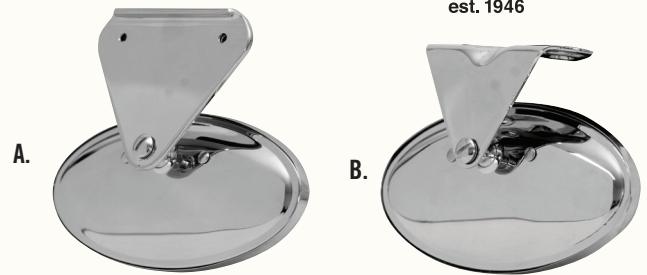

(B) #001-50102 Driver's side mirror: \$55.00 ea.

SO-CAL Mirror Stem Gasket: No matter how big or small the product, we are always improving the line. This gasket may seem like a small item but is an integral part of the swan neck mirror assembly. Our mirror stems use a single mounting stud and a curved base in conjunction with a neoprene gasket to secure the mirror to the car's sheet metal. The better the gasket the more secure the mirror and this new design guarantees the best possible fit.

#001-50103 SO-CAL mirror gasket: \$1.95 ea.
