A. Standard Seat

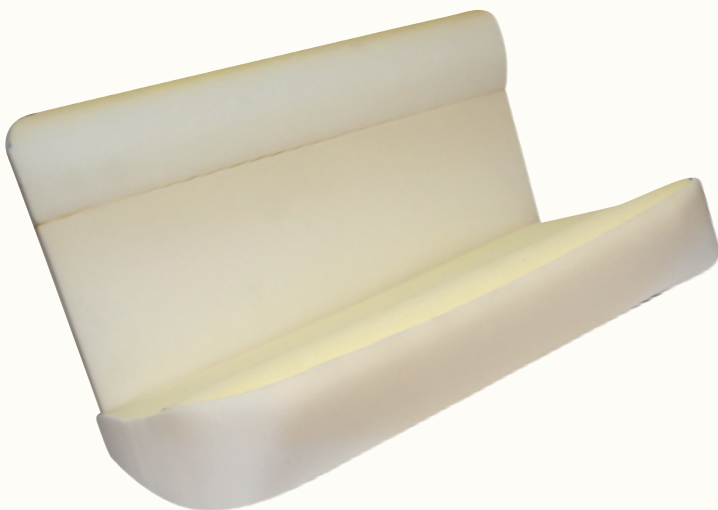

B. Seat with Arm Rest

SO-CAL Speed Shop Adjustable Seat: We put in a lot of seat time with our hot rods and there has always been room for improvement in the seating area. So we got together with the folks at Glide Engineering and improved an already dynamite product. The seat cushion flips up and forward to reveal a storage compartment for on-road essentials. Also featured is the angled base, with fore and aft movement of a full seven inches, allows for the tallest and shortest of drivers while the back reclines for additional comfort. It's ideal for roadsters, coupes and pickups. The seat is also available with an arm rest and a foam package which makes it even more versatile.

(A) #001-60530 SO-CAL Glide seat w/sliders and risers: \$650.00 ea.

(B) #001-60530CA SO-CAL Glide seat w/arm rest sliders and risers: \$755.00 ea.
