## Air Conditioning Seminar - May 2007

Thanks go to Rick Love, VP of Vintage Air for the fantastic air conditioning class held Wednesday, May 16 at SO-CAL-AZ. We had about 70 car enthusiasts attended the AC Seminar, despite the Suns vs. Spurs play off game. I guess that was fitting since Vintage Air is based out of San Antonio. The 2 hour seminar covered everything from basic principles to systems specific to the student's vehicles. I think we all came away with a greater understanding and application of AC. Heaven knows we need it out here in the Dry Heat of Arizona.

The SO-CAL-AZ staff is committed to providing knowledgeable, friendly service to our customers, making sure they get the right parts for their projects.

Next time you need parts, give us a call at 1-800-732-0076, and one of our reliable counter men will help you with your project.
