FUEL PUMPS & RELATED

UNIVERSAL ELECTRIC FUEL PUMP

Electric fuel pumps available for 6 or 12 volts

6 VOLT	MAC-EFP-9350-6	69.99 EA
12 VOLT	MAC-EFP-9350-12	69.99 EA

CHROME FUEL PRESSURE REGULATOR

Universal regulator. Adjusts from 1-6psi. Includes fittings for 5/16 or 3/8 fuel lines, tubes and clamps.

REGULATOR	RPC-R5857	38.99 EA
-----------	-----------	----------

FORD FLATHEAD V8 FUEL PUMPS

Stock replacement fuel pumps for the early Ford V8s. These look, work and hook up just like the original.

32-48 V8 STEEL BOWL	MAC-11A-9350	69.99 EA
38-48 V8 GLASS BOWL	MAC-59A-9350	69.99 EA
49-50 V8	DEN-578-9350	99.99 EA
51-53 V8	DEN-9785-9350	106.99 EA

FORD CAR FLEXIBLE FUEL LINE

Line that connects the steel line on the firewall to the pump. V8.

1932-48	MAC-18-9288	9.99 EA
1949-50	LIT-7HC-9288	9.99 EA
1951-53	LIT-1BA-9288	9.99 EA

FORD FUEL PUMP TO CARBURETOR LINE

Copper line and fittings that connect the V8 fuel pump to the carb.

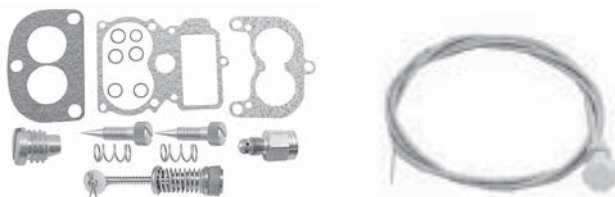

FUEL PUMP LINE	MAC-91A-9369	6.00 EA
----------------	--------------	---------

CARBURETOR KITS & RELATED

FORD CAR/TRUCK CARBURETOR REBUILD KIT

Ford-Holly carburetor rebuild kits for original style carburetor.

32-36 CAR "97"	MAC-67-9590	24.99 KIT

AIR CONDITIONING UNITS, UNIVERSAL

GEN II A/C EVAPORATOR

These units use servo motors, meaning vacuum is no longer needed to operate your a/c. All vent doors in the evaporator and the hot water shut off valve are all controlled by electric servos, giving you true bi-level operations. Air or heat can exit through the dash vents, floor vents, or be split between the two. Kits include evaporator and mounting brackets, wiring, a/c duct hose, drain kit, and defrost system. Super cooler is 4 vent system, compact and mini are 3 vent. There are a number of different control panels available for these units. Please call for more info.

SUPER AIR/HEAT/DEF AIR-61005-VUZ 525.99 KIT
COMPACT AIR/HEAT/DEF AIR-68000-VUZ 499.99 KIT
MINI AIR/HEAT/DEF AIR-66005-VUZ 499.99 KIT

GEN IV MAGNUM A/C EVAPORATOR

The all new Gen IV Magnum utilizes all the features that you have come to expect from our Sure Fit Series units; including fully electronic servo motor operated doors, a dedicated defrost mode, bi-level operation, and an adjustable heater blend door for "just right" temperature control. The Gen IV Magnum utilizes a CAD designed case, a separate parallel flow copper/ brass heat coil, an aluminum plate/fin cooling coil, and a SPAL blower motor with infinite speed adjustment to deliver maximum performance and comfort in a relatively small package size. Please call for sizes and options.

MAGNUM AIR-671400-VUZ 699.99 KIT

A/C COMPRESSORS, PARTS & MOUNTS

SANDEN 508 A/C COMPRESSORS

Compact, low hp draw compressors for aftermarket or upgraded a/c systems. These are the small compressors that Bill's Brackets, Vintage Air, Zoops, and more design all of their components to work with. These are available for R12 or 134A refrigerant, in plain or polished finish. Be sure to let us know if its V-Belt or Serpentine system.

COMPRESSOR CLUTCH COVER

Polished aluminum cover for the face of the clutch. Mounts using the three bolts in the center of the clutch. Nice piece to compliment a polished compressor, aluminum pulleys or chrome alternator.

CLUTCH COVER	RPC-R8850POL	23.99 EA
--------------	--------------	----------

A/C CONDENSORS & PARTS

A/C CONDENSERS

Vintage Air's state of the art super flow condensers are perfect for 134a or R12 systems. With new "micro tube technology" and improved refrigerant flow, these units give you up to 40% more capacity than equal sized tube and fin condensers. Be sure to measure for the biggest condenser that you can use. Also check to see if a vertical or horizontal condenser will work best. The vertical works great for 32-48 cars and trucks. For the 39-40 Fords, they offer a condenser with

A/C DRIERS & SAFETY SWITCHES

A/C DRIER

A must for all a/c systems, now you just need to choose what style you want. Standard driers have threaded ports for the binary or trinary switches to screw right into. You can order your drier with the binary or trinary switch included.

STANDARD BLACK	AIR-07321-VUC	32.99 EA
STD BLACK W/BINARY	AIR-07322-VUC	44.99 EA
STD BLACK W/TRINARY	AIR-07323-VUC	65.99 EA
STANDARD CHROME	AIR-07310-VUQ	69.99 EA
STD CHROME W/BINARY	AIR-07308-VUQ	89.99 EA

BINARY SWITCH ONLY	AIR-11079-VUS	15.99 EA
TRINARY SWITCH ONLY	AIR-11086-VUS	39.99 EA

IN-LINE SAFETY SWITCHES

Vintage Air will not warranty their systems without one of these switches. These control the power to the compressor and turn it off when refrigerant levels are too low or too high. The binary switch controls high/low pressure, the trinary controls high/low pressure and electric fan activation when head pressure is too high. These include the fittings to install them into your ac hoses or they are available with some of the driers.

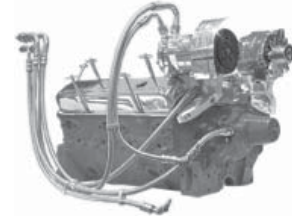

BINARY SWITCH	AIR-24677-VUS	39.99 EA
TRINARY SWITCH	AIR-24676-VUS	55.99 EA

A/C LINES, HOSES, FITTINGS & PARTS

BEADLOCK A/C HOSE KITS

The guys at Vintage Air use these barrier refrigerant hoses for their a/c systems. This hose works great for 134a and R12 kits. The kits include adequate hose length to connect the complete system, O-ring fittings, crimp ferrules, and a standard black drier.

134A HOSE KIT	AIR-31700-VBD	109.99 KIT
134A HOSE KIT W/O DRIER	AIR-31703-VBD	95.99 KIT

STAINLESS STEEL A/C HOSE KIT

Air conditioning hose and fitting kit made of stainless steel hardware. This kit includes braided stainless hose and stainless or polished stainless o-ring fittings with Ferrules. When you get them ran and cut we can send you to the supplier that makes them and he'll crimp the lines for a small fee. This is a beautiful kit, great for any Hot Rod

134-A HOSE KIT	GOT-343110	399.95 KIT
