LED TAILLIGHT KITS & CONVERSION

L.E.D. TAILLIGHT CONVERSION KITS

Kits for converting your stock taillights from the old style light bulb and upgrading them to a bright LED set up. These fit into your stock taillight buckets, use your stock tail light lens, and include all the hardware and instructions to bolt these kits in. Get a new, bright, safe taillight and modernize your car truck at the same time.

NO LOAD FLASHER FOR LED LIGHTS

This little guy is needed when using LED taillight, turn signals, or parklights. LEDs draw so little voltage that the stock flashers don't typically work. These will let the lights blink. Check if you need the 2-prong or 3-prong flasher for your set-up
