### SO-CAL RADIUS RODS & BATWING KIT (A)

Simple and clean hairpins designed with "hot rod" in mind. These stainless batwings and chrome radius rods work great with an I-beam axle. Batwings include built-in lower shock mounts and panhard bar mounting tab. Complete with instructions and mounting hardware.

CHROME/STAINLESS SOC-62033 669.99 KIT

### SO-CAL F-1 STYLE SHOCK MOUNTS (B)

Made to look like the original Ford F-1 upper shock mounts, these polished stainless mounts add a touch of beauty to any front end. With these you get: upper rubber shock bushings, weld in chassis bungs, and mounting bolts.

## SHOCKS & SHOCK KITS

### SO-CAL SPEEDSHOCKS

We are proud to introduce our new line of Speedshocks in steel. These nitrogen filled gas shocks are engineered specifically for hot rod applications and offered in the "Standard" length of 9 1/4" closed and 14 1/4" extended. They are manufactured with or without dust covers and can be run on the front or rear end of the car in either configuration. The distinctive design of the dust cover is reminiscent of the "airplane shocks" used on early hot rods during the 40's and 50's. Other features are 90 durometer replaceable 5/8" ID lower and 7/16" ID upper neoprene rubber bushings and they come finished in either high gloss SO-CAL red or show chrome.
