UNIVERSAL TURN SIGNAL SWITCH

These universal turn signal switches mount with a clamp around the steering column. They include all mounting hardware, instructions, and color coded wire leads. The smaller, more compact switch is just for turn signals, the larger switch does turn signals, four-way flashers and it lights up showing what direction you're turning.

SMALL SWITCH	PAC-A-5007	18.99 KIT
LARGE SWITCH	PAC-5007-R	21.99 KIT

SELF CANCELING SWITCH

This is an adjustable Time Delay turn signal switch. It allows you to set the time the turn signals blink any where from 3 seconds to 2 minutes. Includes a control box, one momentary switch for turn signals and a toggle switch for the 4-way flasher. Wiring and instructions included.

TURN SIGNAL SWITCH	HAY-DSELF-CANCEL	129.99 KIT
--------------------	------------------	------------

NO LOAD FLASHER FOR LED LIGHTS

This little guy is needed when using LED taillight, turn signals, or parklights. LEDs draw so little voltage that the stock flashers don't typically work. These will let the lights blink. Check if you need the 2-prong or 3-prong flasher for your set-up
